PROFILE

I'm an experienced developer with the curiosity of a fresher. I also publish my own apps (4M+ installs), that trained me to think just beyond code and focus on user and product. I've worked on 22 apps so far, freelanced for clients, and mentored a dev team. I communicate clearly and deliver reliable results on time, whether working solo or in a team.

WORK EXPERIENCE

Developer, Ultera Pvt Ltd

Sep 2025 – Present

Kayla 

Lead Flutter Developer

May 2024 – Nov 2024

- Handled 12 product and service-based projects, balancing both individual and team roles.
- Mentored a team of developers and interns, guiding project execution, and resolving technical challenges.
- Increased team efficiency by implementing automation and AI tools into workflows
- Worked closely with UI/UX designer and QA to deliver user-friendly and bug-free apps

Flutter Developer

Jul 2023 – Apr 2024

- Handled 12 product and service-based projects, balancing both individual and team roles.
- Specialized in iOS deployment - solved technical roadblocks and addressed App Store rejections effectively.

Independent Projects & Freelancing

Jan 2022 – May 2023

- Developed, published, and marketed 3 personal apps, achieving millions of installs through strategic App Store Optimization.
- Developed and delivered 3 apps for clients.
- Turned concepts into successful products, showing an entrepreneurial mindset.
